

THE CITY OF
SAN DIEGO

Mount Hope Market Street Median and Street Light Project

Project Background

This project was initiated in September 2002 when the Southeastern Economic Development Corporation (SEDC) applied for and received a U.S. Department of Housing and Urban Development Section 108 loan to improve the street lighting in the Mount Hope neighborhood. In 2009, the street lighting improvements were combined with planned street median improvements on Market Street in Mount Hope, and the project received Community Development Block Grant – Recovery (CDBG-R) stimulus funds from the U.S. Department of Housing and Urban Development to complete the construction funding.

Project Overview

The Mount Hope Market Street Median and Street Lighting Project will install new street medians and new and replacement streetlights to address residents' concerns about safety.

A set of landscaped and paved street medians on Market Street between Boundary and 41st Street will improve vehicular and pedestrian safety, improve neighborhood recognition by providing continuity with the existing medians, and enhance streetscape appearance.

New streetlights to be installed south of Market Street between 41st Street and 43rd Street will comply with City standards on spacing of streetlights and increase visibility and safety in the area.

Construction Schedule

The estimated time for construction is 180 working days beginning January 2011.

Cost

The estimated construction cost is \$459,000.

- ▶ Airports
- ▶ Bikeways
- ▶ Bridges
- ▶ Drainage Control & Flood Control Facilities
- ▶ Libraries
- ▶ Park & Recreation Centers
- ▶ Police, Fire & Lifeguard Stations
- ▶ Street Improvements
- ▶ Street Lights & Traffic Signals
- ▶ Utilities Undergrounding
- ▶ Water & Sewer Facilities
- ▶ Water & Sewer Pipelines

“Working together to engineer a better tomorrow.”
